### **Identity of Assignee and Title of Disclaimant**

After examining the original assignment identified below, I hereby certify that the assignee of the above application is Polaroid Corporation, a corporation of the State of Delaware, of 1265 Main Street, Waltham, Massachusetts 02451.

### **Recordal of Assignment in Patent and Trademark Office**

The above-identified application is a division of prior co-pending United States patent application serial no. 10/151,432, filed May 20, 2002, now U.S. Patent 6,801,233 B2. The assignment of application serial no. 10/151,432 is to Polaroid Corporation and was recorded on July 23, 2002 on Reel 013107, Frame 0677.

### **Extent of Interest**

The extent of Polaroid's interest is the whole of this invention.

### **Disclaimer**

I hereby disclaim the terminal part of any patent granted on this United States patent application serial no. 10/806,749, which would extend beyond the expiration date of the full statutory term of the patent granted on United States patent application serial no. 10/958,139, filed October 4, 2004 and now U.S. Patent 6,906,735 B2 and assigned to Polaroid Corporation, and hereby agree that any patent so granted on this United States patent application serial no. 10/806,749 shall be enforceable only for the period that the legal title to said patent shall be the same as the legal title to U.S. Patent 6,906,735 B2, the patent granted on the aforementioned United States patent application serial no. 10/958,139, this agreement to run with any patent granted on this United States patent application serial no., 10/806,749, and to be binding upon the grantee, its successors or assigns.

Application Serial No. 10/806,749  
Terminal Disclaimer dated July 25, 2005  
Reply to Office Action of July 5, 2005

Petitioner does not disclaim any terminal part of any patent granted on this United States patent application serial no., 10/806,749, prior to the expiration date of the full statutory term of U.S. Patent 6,906,735 B2, the patent granted on the aforementioned United States patent application serial no. 10/958,139, in the event that U.S. Patent 6,906,735 B2, the patent granted on the aforementioned United States patent application serial no. 10/958,139, later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to the expiration date of its statutory term, except for the separation of legal title stated above.

A handwritten signature in dark ink, appearing to read 'Ira H. Parker', is written over a horizontal line.
